## ABOUT

Passionate about designing and developing websites and applications, with a focus on creating intuitive and visually appealing user experiences. Open to collaboration on innovative projects that push the boundaries of web development.

## SKILLS

- HTML | CSS | JavaScript | TypeScript | VueJS | NuxtJS | ReactJS | NextJS | Angular
- C# | Java | C++ | Python | .NET framework | ASP.NET Core | WPF | Express | NodeJS | MySQL | PostgreSQL | TypeORM | Postman API
- SEO | Digital Marketing

## EXPERIENCE

**Frontend developer**    March 2022 - present

EducUp, Inc.

I improved the company's sales by enabling web-based purchases using Stripe, Google/Apple Pay, Klarna and AfterPay.

I migrated the website from ASP.NET Core using C#, along with HTML, CSS, jQuery and pure JavaScript, to Vue 2 with JavaScript. This project evolved further as I upgraded the app to Vue 3 and eventually to Nuxt 3 with TypeScript, including endpoints to connect to database.

**Full Stack developer**    2020 - present

Freelancer

Development of web pages and templates for companies and professionals.

Creating web apps using Vue, React, Angular, NodeJS.

## EDUCATION

**Computer Engineering**

Technological University of Havana "José Antonio Echeverría" | 2017 - 2021   (Diploma thesis)

Graph drawing in .NET, desktop app. Animations, ui components, DLLs. Draw objects on Canvas. WPF and C#
